

To Principals, Assistant Principals and Teachers:

We have devised a plan to offer teachers the opportunity to purchase the Digital Edition of either The Telegram or The Western Star for half the cost, \$6.83 per month, Monday to Saturday, 12 months of the year. This will be a special NIE Educational Subscription. All money from these subscriptions will go towards supporting the NIE program. You will be able to access your complete newspaper on you home computer, iPhone, iPod or iPad. Teachers will only have access to the Digital Editions for this special rate and will not receive the hard copy of the newspapers.

Thanks to the financial support of our NIE partners, we will also provide free access to web site links to view and use numerous NIE curriculum resources to assist with meeting the curriculum objectives and outcomes in all subject areas. Go to the Telegram Web Site of your home subscription, go to Links at the bottom right, select the NIE Newspaper In Education link and select NIE curriculum Resources (Complete guides). When you select the NIE Newshounds provider, the password for each PDF is niedonhale (all lowercase letters).

When registering for this reduced rate for The Telegram, call our Customer Service at 368-5000, ask to speak with our customer service representative, Nichole Hapgood, or toll free, 1-800-454-4348 for The Western Star. However; teachers will have to pay-in-office, use the e-mail assigned to them by their school district as your log-in, and choose their own password. If you are a teacher and are already subscribed to The Telegram or The Western Star, you can switch to the reduced rate offer; however, you will only have access to the complete newspaper in digital format and not the printed copy.

Please share this information with all your teachers.

We hope you find this helpful in facilitating the use of the NIE Digital Editions of the newspapers in your classroom.

Sincerely,
Dave
